A Guide to walking around Hylands Estate

We want to make sure everyone can enjoy a walk around our estate, whether you're here for a gentle stroll or a bigger excursion.

On the next set of pages, you will find two maps of Hylands Park.

- Pages 4 & 5 are the walking routes with estimated distances and timings
- Pages 6 & 7 shows our species rich grassland areas where you will find longer grass and wildflowers in the spring and summer months.

The full details of each walk are found further on in this brochure.

So you can choose a walk that's right for you, here are some of our top tips for exploring Hylands Estate:

The Deli

Our onsite cafe at The Stables is open from 8am every day, closing at 4pm (autumn/winter) or 5pm (spring/summer). The Deli Dog Cafe along the side of The Stables is the ideal outdoor seating area if you are bringing your dog along.

The Deli has a new seating area for up to 18 people which can be reserved in advance. If you are a group and wish to use a private area for your pitstop, email hylandsorders@thedeli.co.uk

Parking

There are car parks at each entrance to Hylands Estate as well as our central car park in the centre near The Stables.

Parking charges apply between 9am and 6pm. If you are a Chelmsford resident you will be entitled to a discount via the MiPermit app.

Scan the QR code to visit the Chelmsford City Council website for more information about our car parks

Accessibility

- Some of our walks are very long and not on hard standing paths making them not suitable for wheelchair users or those who require seats often. There is a slight slope on our Jubilee and Repton walks.
- Most of our walks are far from refreshments, which can only be found at The Stables or near the Adventure Castle playground. Make sure you are prepared with food and drink, suitable clothing and footwear, and a way of contacting someone if you are on your own.
- A Changing Place unit is nearby the Adventure Castle playground at the Writtle end of the park. Visit the Chelmsford City Council website to apply for a key to access this facility.

The best walk for everyone is our Pleasure Gardens Walk, which is hard standing and nearby facilities including an accessible toilet.

A copy of this brochure with audio description can be found on our website. There is also a large print copy available from our Info Point.

Species Rich Grassland Areas

To support wildlife and local ecology across the estate, these areas will be maintained as grass species rich hay meadows during spring and summer.

Some shorter-mown walking routes will be maintained through these areas. Where the meadow areas are maintained as hay meadows the wildflowers and grasses will be longer to walk through and may not be suitable for dogs.
